PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations, being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIC (DIA). The photographic analysis for this particular report was performed by the Production Center IPIC.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: A) railroad service, B) road service, C) landing strips, D) administrative and troop bivouac areas, E) storage areas, F) ammunition storage areas, G) POC storage areas, H) other buildings and facilities, I) equipment storage/maintenance areas, K) athletic fields, L) small arms firing ranges, M) driver training areas, N) tank, assault gun firing ranges, O) larger infantry firing ranges, Q) artillery emplacements/batteries, R) infantry or combined arms field training areas or courses, S) special training facilities, T) unidentified facilities or tracking activity.

SUMMARY

Vladimir Volynskiy Bn, 15th Gds Muz RB and Storage Depot are located in the outskirts of Vladimir Volynskiy (Figure 1) and are associated with a training area 2 kilometers (km) north of town.

The installation (Figures 2 and 3) includes 3 single-story barracks, 3 administration buildings, 25 storage buildings, 18 support buildings, one motor storage building, and one motor maintenance building. A radio station is adjacent to this area. The Storage Depot includes one administration building, one motor maintenance

building, 15 storage buildings, 14 support buildings, and four POL tanks.

The depot is served by a siding off the main rail line and also has a good access road to the main highway. The barracks area has no direct rail facilities, but it is located one km south of the main rail line and adjacent to the main highway to Hrubieszów (Poland).

These installations were covered by [REDACTED] missions between [REDACTED]. No change was noted.

DESCRIPTION OF INSTALLATION

25X1D

Railroad Service

A single rail spur serves the storage depot.

Road Service

Both installations are located adjacent to the main highway and have good all-weather roads.

Administrative and Troop Housing Areas

Area D1 contains three single-story barracks, two single-story administration buildings, 13 single-story storage buildings, and eight single-story support buildings.

Area D2 contains one L-shaped administration building, 12 single-story storage buildings, 10 single-story support buildings, one 110- by 60-foot motor storage building, and

one 65- by 25-foot motor maintenance building.

General Storage Area

Area G contains 15 single-story storage buildings, one single-story administration building, 13 single-story support buildings, and a 90- by 40-foot single-story motor maintenance building.

POL Storage Area

Area G contains one support building and five tanks, two 40 feet in diameter, two 20 feet and one 15 feet in diameter.

Athletic Fields

Areas K1 and K2 are oval-shaped foot tracks.
